

Your Forests need you NOW... act to conserve!

**Let's stop the destruction of Corunna Forest
& other threatened areas of the Gulaga region!**

**Come along with your family
& friends to the**

“Great Awesome Picnic” Lakeside in the Forest

**@ Sunday, 5th August @
11 - 2.30pm**

**Enjoy the beauty of this special place where the forest
meets the lake...bring lunch (BBQ available) or enjoy
food from the “Koori Kook-Off” (by donation), Guided
Forest Walks, Paddling on the lake,
National Tree Day Plantings!**

**‘Awesome Crowd’ aerial photo - 1 pm -
to send a clear message to the politicians that they can
and should stop this logging.**

**Together we can save this & other precious habitats in
the Gulaga region from imminent logging destruction.**

Lets make it "forever logging free".

**LOCATION @ threatened coup 5058 - western side of the highway,
200m north of Watertank Road (the Winery turnoff). Watch for signs
& banners at entry point. Please park along the highway. Easy 500m
walk down to the lake. Vehicle access for those that need.**

PLEASE HELP spread the word & get people involved!

Let's make the SE “forever logging free”

WHY IS IT SO IMPORTANT TO BE INVOLVED NOW !?!

It is blatantly clear: In the last 30 years, the Forestry Industry has decimated State Forests. Now the Government is allowing current practices to continue unchanged, while also working to legislate access to areas previously protected, and grant ‘total clearing rights’ for forests on private land.

80% of Koala habitat could be cleared, whilst making Australia drier, and the climate less stable. Why? for a small number of jobs, wood chips (sold at a cost to tax payers), wood pellets for heating & soon power generation !?! Why do so many countries have no forests? ... cleared them, like Forestry wants to do to the last Great Forests of Australia. Plantation timber can supply all our needs & ready to go.

IT's IMPORTANT TO...understand how corrupt, unsustainable, unviable, climate damaging this is...creating erosion, destroying waterways & habitats, wiping out species, all through greed fuelled mismanagement of “Our Greatest Asset”.

**Please step up & join the Nationwide CALL for
Truely SUSTAINABLE FOREST MANAGEMENT &
a TOTAL BAN on logging ANY OLD GROWTH FORESTS!**

PLEASE HELP spread the word & get people involved!
