

**TRIANGLE OWNER BUILDERS PRESENTS ANOTHER
DECONSTRUCTING CONSTRUCTION EVENT**

DIY FIRE SPRINKLER SYSTEMS

Saturday 30 November 2024

9.30 am - 11.30 am

Many of us are thinking about installing fire sprinkler systems in preparation for this and future bushfire seasons.

Effectiveness, budget, ease of installation and operation for different sites under critical conditions, are the criteria we can use to work out which one is best for each of us.

We have a few community members who want to share their DIY solutions with you. One of them used his system to save his house in 2019/20 bushfires.

The workshop will be held in Quaama to look at an installation on one property. Others will share their approaches.

There will be plenty of time for Q&A and networking. Morning tea will be provided.
